

NMAO — Season Champion Medallions

Copy-paste prompt sheet · S1–S10 · one flagship dragon per season, color-matched to that year's Gem Series Imprint medal.

How to use

Generate the **text-free** versions (blank banner) in Firefly (Content type = Art, 1:1). Same dragon, gold field, platinum frame every season — only the dragon's scale color and the frame gem change. After generating, the finishing is automated: `crop_medallion.py` removes the background, then `letter_champion.py` bakes a crisp “SEASON CHAMPION” banner + “S#” gold seal in identical type across all ten. No baked-in AI text needed.
